

## TNT Shunted To Siding 90,000 Pounds In City Packing Held Insecure

Ninety thousand pounds of TNT (Trinitrotoluol), shipped to Ogden for the use of the forest service and the bureau of public roads, is proving to be a bone of contention between the government men and local railroad authorities, according to information received today.

The shipment was consigned to Ogden from Sparta, Wis. It was elaborately packed, the boxes being filled with dove-tail joints and securely covered tops, it is said.

Someone, while the shipment was en route, apparently sprinkled the entire contents of two box cars with water and the boxes, in drying, warped in a manner that caused cracks to occur in the joints of the boxes.

Despite this fact, the cracks being so minute that none of the explosive was escaping, the shipment was loaded at the freight house into a number of cars destined for various parts of the country, when it attracted the attention of an inspector, who demanded that the shipment be repacked. Because of lack of facilities in handling the explosive, it was impossible for

## Expert Arrives To Play Jolly Games With Ogden Children

"With the arrival of Miss Josephine Randall, play expert and leader in pastime club work, the first of the aims of the local Community Service Workers is reached," said John Edward Carver last evening in speaking of the announcement of organized games for the children of Ogden.

"For six months we have been working and planning for renewed community activities and each time we neared the goal something happened to intervene. Now we can hardly realize that we really have a worker of almost national prominence here to give us her entire time for an indefinite period, but such is the fact. What is of added encouragement we will have another national worker here this week to give still more aid to local community work. Mr. Farney, who has had the work in Portland in charge and has made a marked success of it will spend much of the summer here in active work."

"Moreover, Mr. Bradford, a Utah boy, who is the acknowledged song leader of the entire country and who was placed in charge of the national community singing by the government during the war period is promised during the week period a song festival right here in Ogden, which we desire to look very good right now for Community Service in Ogden."

**Want Ogden Women.**  
"Miss Hattie Stanford, from Leland Stanford in 1912, where she was a member of the Sigma Xi sorority. It is hoped that there will be several women in Ogden who desire to take a course in play leadership. Miss Randall will give them the same training she has given in San Francisco and San Diego and who desire to take a course in play leadership. This course will embrace instruction and demonstration in the following:

"Plays and games.  
"Practical conduct of playground activities.  
"Practical play ground demonstration.  
"Organization and management of play grounds and rooms.  
"Community pastime activities and club work."

"This work will commence the first day of July. It will all be outdoor work the classes if any meeting out of doors, and there will be no fee whatever. The only requirement is that those who attend be regular and fairly prompt. The training will be of real value to all who have any work to do with children, and mothers have found it of assistance in other cities. More over there is some opportunity of advancement for a few who wish to make play leadership a life work. Cities are finding it impossible to secure enough young men and women who have had any training to supervise grass play and the demand is growing rapidly."

**Opportunity on Wednesday.**  
"There will be opportunity for those interested to meet Miss Randall Wednesday. The play on City and Lester parks will commence Thursday, the first of July. The children will be taught a constructive course of grass play, but for them it is fun of the purest and most fascinating type. There is no fee for this, but regular attendance is asked. In the constant cities the grass play hours under Miss Randall have been so attractive that children have been turned away for want of room, even in the parks. The games are open free to all children who will attend regular and there is a much healthy instruction in the hour as there is in fun and that is saying a whole lot. The play hours commence Thursday and the hour and place will be announced Wednesday."

**Flyers Disregard Carranza's Orders**  
MEXICO CITY, June 10.—By ordering the bombardment of defenseless towns held by the Sonora revolutionists, President Carranza lost 40 of his 50 aviators, according to Lieutenant Luis Fredeiro de la Torre, adjutant of the First Flotilla of the Mexican air service.

"Captain Diaz Martinez and I issued a manifesto at Mexico City, declaring that we would not obey Carranza's orders which would mean the repetition of the aerial barbarities practiced by Germany upon the towns of Belgium," Lieutenant de la Torre said today.

"The towns we were ordered to bombard were Cuernavaca and Cuautla, Morelos, and other places in that region. Some of us, including myself, did fly over the places indicated, but we dropped our bombs where we knew they would do no harm."

The air strength of the Mexican army consists of about 50 planes. In addition the service has about 55 motor cars, to be used in planes of Mexican manufacture. Carranza ordered 150 horsepower Italian machines are on route to Mexico, according to Lieutenant de la Torre.

The Mexican aviation school, closed by Carranza about two months ago, will reopen shortly, according to the lieutenant. Seven thousand applications for enrollment have already been received, despite the fact that right entrance requirements, tending to make aviation a professional career, have been established.

## To Discuss Fathers and Sons' Vacation

Members of the Weber stake presidency, members of the high council, scoutmasters of the Boy Scouts and troop committees will meet at the camp of troop 23 at Thirty-third street and Madison avenue Tuesday evening for the purpose of arranging details for the fathers' and sons' outing which will be held in the near future.

Speeches by the prominent men present, songs, stunts, together with a "feed" will constitute the program. The program is in charge of Hugh Holdaway.

**GUNBOAT SMITH WINS**  
CHICAGO, June 26.—"Gunboat" Smith of San Francisco outpointed Tony Melchior of Chicago in a ten-round bout at East Chicago, Ind., today.

**Skandinaviske Ungdomseag**  
Will give a dance at Twelfth street amusement hall, Saturday evening, July 3. Union music. Refreshments at the hall. Interesting program beginning at 7:30 p. m. Dancing at 9 o'clock. Everybody come and have a good time. Admission 25c.

## PERTINENT LIST OF DON'TS GIVEN BY FOREST OFFICE

Pertinent advice to campers were issued yesterday by the Ogden forestry offices as follows:

**WHEN YOU WALK THROUGH FORESTS**  
Don't drop FIRE when you smoke in the woods, nor throw it out along the road. Keep the forests GREEN.

**DANGER!** Matches, pipe coals, cigar stubs, and cigarette ends start many forest fires. Help protect woods, streams, scenery.

**BE CAREFUL!** Don't start a fire in the woods when you begin or end your smoke! Be sure your match, cigarette, or pipe is out.

**DON'T START WHAT YOU CAN'T STOP.** Be careful with fire in and near the forest.

**FIRE IS DANGEROUS!** Be careful when you smoke in the woods, don't start a forest fire.

**YOUR CO-OPERATION** with this company to keep down forest fires is asked. Break your match in two. Knock out your pipe ashes into your hand. Don't drop a burning cigarette.

**FOREST FIRES** cost millions a year. Don't start one.

**DON'T THROW FIRE AWAY** in the woods or along the road.

**LESS POLYGAMY IN PHILIPPINES**

Native Girls in Public Schools Soon Grasp Advantage of Monogamous Idea

MANILA, P. I., June 23.—Practice of polygamy in the Philippine islands is being reduced through education of girls of the leading families of the outlying provinces, according to Frank W. Carpenter, retiring governor of the Department of Mindanao and Sulu.

Mr. Carpenter is here to turn over administration of his office to the secretary of the interior who will set through the bureau of Non-Christian Tribes in accordance with a new territorial law. This law leaves in effect a treaty under which the Sultan of Sulu renounced all pretensions to temporal sovereignty but gained recognition as ecclesiastical head of the Mohammedan church in the Sulu archipelago. The treaty guarantees to the sultan and his people the same religious freedoms, the practice of which is not in violation of the basic principles of the laws of the United States.

It is important to note, said Carpenter in one of his messages written as governor, "that this includes a limitation as to religious practice which necessarily includes the abandonment of polygamy. There can be no question that it will disappear as the relative number of persons of the two sexes reach an approximate natural equality."

"An effort to impose upon the people of the sultan at this time the invalidation of polygamous marriages heretofore contracted, the prohibition at this time of polygamy or the discontinuance of divorce, must unavoidably result in the active resistance of a people imbued with fanatic determination to die rather than submit to a privation of their religious liberties in matters they believe to be fundamental and sanctioned by divine authority."

Mr. Carpenter said that girls of prominent families in Mindanao and Sulu are being sent to Manila public schools where they are gradually becoming imbued with the monogamous ideas held by the Christians. The girls are advised to adhere strictly to their own religion as their influence, it is said, would be destroyed if they abandoned it. When they return to their own people their influence tends to eliminate plural marriages, according to Carpenter, who predicted that the practice will be virtually wiped out in the course of a few years.

**REFORMATORY INMATES BEAT WOMAN PEACEMAKER**

(By International News Service.)  
REDFORD, N. Y.—Acting as a peacemaker between two fighting inmates of the Bedford reformatory for women, a matron was so badly injured that she required hospital treatment. When the matron interfered in their quarrel the young women pummeled her.

Miss Florence Jones, now superintendent of the institution, said the two girls would be on a bread and water diet for some days to come.

## Picnic Time Has Come Sunburn vs Sandwiches 'Tis A Gay Time-After

(By HARRY P. BAGLEY.)

**PICNIC TIME'S HERE AGAIN.**

Pack up the ham sandwiches, the dill pickles, the comb of honey (who can forget the comb of honey they toted to Mt. Ogden), girls and we'll go on a picnic to Main's habits.

Of course, when picnicking, one's nose gets sunburned, and maybe one puts one's hand in a bunch of poison ivy and transfers the juices of this vile plant to various points on one's physiognomy, and mayhap a bunch of bees, or a wasp, or a hornet, to say nothing of horseflies and mosquitoes, disturbs the tranquility of the picnic, but such occurrences only add to the zest of the occasion.

And the baseball, the mitts and so forth. The mad chase down the mountainside until the ball is irretrievably lost. Then the carrying of the used bat, and the gloves, the attempt to utilize a pebble which serves until Willie stops it with his proboscis.

Another picnic favorite, opening a can of deviled ham and incidentally an artery in the wrist with a pocket

knife. Then the youngster either cuts a dainty totie on a broken bottle while wading in the creek, or manipulates a hot potato with disastrous results. The sudden attention of the mother, and the squalling wails of the infant.

These picnics could be endured, no comment would be made, but the majority of the picnickers return to the office the following day, and while tenderly removing a strip of parboiled cuticle from the surface of their cheekbone, or nose, say what a wonderful day they experienced.

Well, 'tis picnic time. How about those ham sandwiches?

**AERIAL CENTER AT BUCHAREST**

Rumanian City to Become Huge Communication Point for Central Europe

BUCHAREST, June 26.—This city will become a huge communication center for south Europe, both for wireless and aviation, if present French plans are carried out. The Marconi company has offered to build a huge wireless station in Rumania, which would handle business from the east as well as local business to the west, but it appears likely that the Rumanians will either continue their own wireless service in connection with the Eiffel Tower and other stations in France, or else permit the French to establish such a station.

Both British and French firms, backed up by their governments, are attempting to arrange a complete airplane service. The French propose to connect Paris, Vienna, Budapest and Constantinople, in a general way, with branch services including Serbia, Bulgaria and Greece. It is hoped later to extend the service to Persia.

French army aviators began last summer to establish a tentative post service between Constantinople and Bucharest, connecting with the express train to Paris. This service is being now developed, but owing to its great cost it is felt necessary to have the aid of the governments over whose territory the airplane service will be conducted, to contribute a pro-rata share to maintain the service.

It is estimated that the cost averages \$100 for each hour the machine is kept in the air.

In view of the poor conditions of the railway systems in south Europe, business men have generally given their support to these plans.

Due to the mountains of central and southern Europe and waters of the Black sea, the Adriatic and the Mediterranean, practical aviation is constantly severely tested.

Flying into Russia does not present the same difficulties. Since the armistice huge German machines carrying passengers and contraband money and other articles of a speculative nature, have made frequent trips between Moscow and Berlin. Now and then these machines come down, but it is generally because of motor trouble.

The establishment of these wireless and airplane communications are a menace to the French policy of keeping eastern and western Europe connected. It is due to the French that since the armistice express trains have been run between Paris and Warsaw, passing the intervening cities of Prague and Vienna, and also between Paris and Bucharest, and finally between Paris and Constantinople. These three who are known as the Warsaw, Simplon and Orient expresses, were first under French army control and are now under commercial control of the International Sleeping Car company.

**HOSIERY BANKS CAN BE OPERATED UNSEEN**

CLEVELAND.—The county treasurer here says he's going to hang a sign during tax-paying time reading "First National May be Drawn on With Safety Here. There'll be coughs and a guard at the door, says he. "So long as women will carry their money where they always have carried it, the county'll give 'em a safe place to take it out," says Treasurer Boyle.

each step and the encircling arms lose their attraction and smoky sulphurous sentences smoulder unceasingly below the hat of the human pack horse.

But for real, unadulterated, back-to-nature picnic, a decent automobile furnishes amusement for the gang both to and from the picnic grounds, which under these circumstances, are generally a trifle closer than the original plans called for.

Who would tread the fields of clover in preference to successfully, for the time being, repair a blowout? Fields of clover are accessible all summer, but the successful patching of an inner tube on a tire of the vintage of '28 is an accomplishment which few throughout all the cons of time, have accomplished.

And the baseball, the mitts and so forth. The mad chase down the mountainside until the ball is irretrievably lost. Then the carrying of the used bat, and the gloves, the attempt to utilize a pebble which serves until Willie stops it with his proboscis.

Another picnic favorite, opening a can of deviled ham and incidentally an artery in the wrist with a pocket

knife. Then the youngster either cuts a dainty totie on a broken bottle while wading in the creek, or manipulates a hot potato with disastrous results. The sudden attention of the mother, and the squalling wails of the infant.

These picnics could be endured, no comment would be made, but the majority of the picnickers return to the office the following day, and while tenderly removing a strip of parboiled cuticle from the surface of their cheekbone, or nose, say what a wonderful day they experienced.

Well, 'tis picnic time. How about those ham sandwiches?

**Syndicate to Draw Nitrogen From Air**

LONDON, June 26.—A syndicate has been formed to establish a nitrogen factory for the manufacture of ammonia synthetically, from the nitrogen of the air, says the American chamber of commerce in London. The syndicate has purchased the extensive site in County Durham which the British government acquired more than two years ago for the purpose of building a factory. The capital required will be £5,000,000 sterling.

The process to be adopted, says the American chamber, will be on the principle of the German chemist, Haber. Nitrogen and hydrogen will be combined into ammonia, under pressure at a high temperature, the ammonia then being converted into nitric acid, or other nitrates as may be required either for the manufacture of explosives or for use as fertilizers.

**LEAVE IT TO "JAG," HE WINS THE SOUP**

(By International News Service.)  
LONDON.—Sir Jagadis Chunder Bose, the scientist who has discovered that plants have nervous systems just like animals, says that he learned during twenty years' experience how to retard the death march of any vegetable from frogs.

"I have been able to retard the death march from twenty-four hours to a fortnight," Sir Jagadis told a high-brow audience.

He has recently been experimenting to discover if he could control the nerve particles of plants. He learned he could strengthen the nerves to resist pain or to convey increased impulses. Similar effects have been obtained from frogs.

"If this can be done in the physical world, the will might achieve similar results in the metaphysical, so that we then need no longer be a passive agent in the hands of destiny."

—oo—

**FALLS FROM POLE INTO WORKMAN'S ARMS**

TOLEDO.—Edward Holland, 31, had a narrow escape from death when he fell from a telephone pole here after being severely burned by an electric fire. John Debbie, a fellow workman, caught him.

## END OF MONTH SALE

### THREE MORE DAYS ONLY

Different to the average run of sales, that attract crowds the first day only, this E. O. M. sale has created considerable talk by those who participated the first day and as a result each succeeding day our sales have greatly increased which proves to us that a satisfied customer is the best advertising in the world. Your share of bargains is here.

## ALL COATS AND SUITS 1/2 PRICE

NOTHING RESERVED

### Waist Bargains

Creme de chine, georgettes or tub silk, values to \$3.50. E. O. M. sale . . . \$2.38

All georgettes and creme de chine worth to \$6.50. E. O. M. sale . . . \$4.89

Lawn waists worth to \$1.50. E. O. M. sale . . . 98c

### Hosiery

All silk hosiery at E. O. M. sale prices.

JAP SILK in floral patterns, washes well, 36 inch with E. O. M. special, the yard . . . \$1.85

BRILLIANT in cream only, 42 inches wide, a good \$1.25 quality. E. O. M. sale . . . 75c

DRESS GOODS—A few pieces in light colors of wool material, 36 inches wide. E. O. M. sale . . . 45c

TAFFETA—In light blue only, 36 inches wide. \$2.25 value. E. O. M. sale . . . 98c

A visit to our store during this sale will pay you big returns as there are lots of items not mentioned in our advertisements that are really worth while.

## PAINE & HURST WHERE THE WOMEN TRADE

### FIRST IMPRISONMENT OF EXPECTANT MOTHER

(By International News Service.)

BOSTON.—No woman who is prospective mother should be sent to prison. That is the opinion of two Boston women consulted in regard to the sentence imposed upon young Pearl Odell, of New York State.

Mrs. Odell has been sentenced to twenty years in the penitentiary for inciting her husband to kill the man who before her marriage betrayed her. In the opinion of Mrs. Tru Worthing White of the League of Women Voters, and Mrs. Marie Downing Faeten, president of the Professional Women's club, Pearl Odell should not become a mother in prison. Motherhood, they affirm, is more to be considered than a year of the sentence. On the other hand, Alice Stone Blackwell and Dr. Evangeline Young think that "being born in prison would not harm the baby."

### MILLIONAIRE REFUSES TO AID ILLEGITIMATE SON

(By International News Service.)

VIENNA.—The illegitimate son of a Viennese multi-millionaire has recently raised the question how far his father is responsible for his education. The son, who is a twenty-two-year-old student of the University of Vienna, is claiming an allowance of 600 crowns (nominally \$120) a month to enable him to continue his studies in history and philosophy. At the moment he is supporting himself by working as a waiter in a cafe on Saturdays and Sundays.

The father takes the line that he promised the son to maintain him, until he could make a living for himself, and that, on the son's own admission, that time has now arrived.

The Country Court judge held that a father should give his son as good an education as he can afford, and ordered a monthly payment of 500 crowns (\$100) for four years.

## A Delayed Shipment of Couch Hammocks Reduced 20% in price

These hammocks are extra good values at the regular price. They are mostly made of extra heavy brown duck and reinforced.

|                             |         |
|-----------------------------|---------|
| \$35.00 Hammocks            | \$28.00 |
| \$27.50 Hammocks            | \$22.00 |
| \$25.00 Hammocks            | \$20.00 |
| \$21.50 Hammocks            | \$17.20 |
| \$ 8.75 Steel Frame Support | \$ 7.00 |

### CREX GRASS RUGS

New shipment just in. Inexpensive, attractive and durable.

BOYLE FURNITURE CO.
